The Philippines lies in the southeastern coast of Asia between 4°23' north and 21°25' north latitude and 116° east and 127° east longitude. It is bordered by the waters of Bashi Channel up its north, Sulu and Celebes Seas down its south, the Pacific Ocean to its east, and South China Sea to its west. Via air travel, the country is just within a few hours ride to Brunei, China, Hong Kong, Japan, Malaysia, Taiwan, and Vietnam.

Stretching to an area of 300,000 square kilometers, the Philippines is composed of 7,107 islands, of which only about 3,144 are named. Luzon, Visayas, and Mindanao are the three largest groups of islands. These groups of islands are further subdivided into regions, the regions into provinces, and the provinces into cities and municipalities. The cities and municipalities are further subdivided into *barangays.*

The country is subdivided into 17 regions, namely, Regions I-XIII, the National Capital Region (NCR) or Metro Manila, Cordillera Administrative Region (CAR), and the Autonomous Region in Muslim Mindanao (ARMM). The (NCR) has 16 highly urbanized cities and one urban municipality. As of March 31, 2008, the country had 81 provinces, 136 cities, 1,495 municipalities, and 41,995 barangays.

Two distinct seasons, the wet and the dry, characterize the climate of the country. During the wet season, (June until November of the year), rains shower all across the land. The dry season, meanwhile, starts from December to May of the succeeding year. These seasons bring about temperatures ranging from a cool of 18.7°C in January to a peak heat of 36.0°C in March.

.

Archaeological findings indicate indigenous Filipinos, not Asian migrants, were the Philippines' first settlers. Through time, foreign races streamed into the country and left traces in the genetics of Filipinos.

Ferdinand Magellan's rediscovery of the Philippines on March 16, 1521 signaled more than 300 years of Spanish colonial rule. Due to the injustice and oppression that the Filipinos have experienced under the Spanish, mass unrests sparked into revolution that weakened the Spanish government.

While Filipino revolts were continuing in the Philippines, the United States intervened in support of Cuba which was then fighting for independence from being a Spanish colony. This led to Spain's declaration of war against the United States in April 1898. Americans defeated the Spanish forces.

In the Philippines, General Emilio Aguinaldo and other leaders of the Philippine Revolution assembled in Kawit, Cavite and declared the independence of the country on June 12, 1898.

Six months after, Spain gave up the Philippines to the United States through the Treaty of Paris. Filipinos' resentment of the fact that they had a new colonizer led to the outbreak of the Filipino-American War from 1899 to 1902. The war was eventually won by Americans. Their sovereignty was later recognized in the islands although Filipinos' long-held dream of independence remained.

While the Americans were training Filipinos in self-governance, World War II broke out. Japanese troops invaded the Philippines on January 2, 1942 and occupied the nation until October 20, 1944.

Following two decades of war, five presidents emerged in succession to carry out the task of rebuilding the Republic. In 1972, then President Ferdinand E. Marcos declared martial law to subdue widespread political unrest. He remained in power until People Power Revolution toppled his government on February 25, 1986 and seated Corazon C. Aquino into presidency. President Fidel V. Ramos succeeded her in 1992. In the 1998 elections, Joseph E. Estrada, supported by the masses, won and became the 13th President of the Republic. However, barely two years in service, Estrada was forced to step down from office by yet another people power revolution on January 20, 2001. Immediately, the then Vice President Gloria Macapagal-Arroyo took oath as the 14th President and still seats on leadership after a peaceful election in 2004. Despite several coup attempts, her government remains unperturbed and her 10-point development agenda still being enforced.

The Philippine government follows the 1987 Constitution to guide its political and governmental affairs while at the same time safeguarding civil rights and liberties of the citizens. The country advocates for a democratic system of government wherein powers rest on three governing departments: the executive, the legislative and the judicial. The President heads the Executive branch and he has a Vice-President and 24-member Cabinet to aid him in leadership. Laws limit the President's term to a period of 6 years.

The Legislative branch is made up of the Congress, a bicameral body with 24 senators and over two hundred district representatives duly elected by the people. In the last May 2007 national elections, congressmen and 21 members of the party-list were elected. The party-lists are organized lobby groups representing marginalized sectors of society.

The Judicial branch, on the other hand, is made up of the Supreme Court, the Appellate, the lower courts and the special courts established by law. The Supreme Court is composed of the Chief Justice and 13 Associate Justices. The Court of Appeals, meanwhile, consists of a Presiding Justice and over 60 Associate Justices.

In sharing and mobilizing the resources for countrywide development, the government is distinctly divided into national and local sectors. Local government sector has officials elected by the people and to serve their constituents for three years. Local autonomy is provided for in the Local Government Code of 1991 in the province, city and municipality.

Notes:

[p] Preliminary

[a] The number of schools in private sector are SY 2004-2005 data.

[b] CPBI, Preliminary results.

[1] Excludes enrolment in state universities and colleges (SUCs)

Continued

Concluded

Notes:

[2] Based on consolidated reports submitted by Regional Offices.
[3] Excluding teachers in laboratory schools of SUCs.
[4] For public elementary schools only.
[5] For public secondary schools only.
[6] The official school-age population for elementary and secondary are 6-11 years and 12-15 years, respectively. The population used in computing the gross and net enrolment rates are based on the *2000 Census-based Population Projections*
[7] From primary (Grade IV) to intermediate (Grade VI)
[8] From elementary (Grade VI) to secondary level (Year I new entrants)
[9] For Grade VI
[10] For 4th Year in SY's 2004-2005 to 2005-2006 and 2nd year for SY 2006-2007
[11] Basic reading and writing skills.
[12] Basic reading, writing, and numeracy skills.
